SURE- SUSTAINABLE RESOURCES ENGINEERING SUMMER PROGRAMME

Focus 2026: Energy & Water for a Resilient Future
Organized by the Lyon Saint-Étienne Engineering Alliance

SURE Summer Programme 2026

- **4-week international program** for undergraduate students passionate about sustainable resource management.
- **Theme 2026:** Energy & Water for a Resilient Future.
- Combines **engineering, environmental, and industrial** perspectives.
- A joint initiative of the **Lyon Saint-Étienne Engineering Alliance**, driving knowledge and solutions for a more **sustainable and responsible world**.

What Makes SURE Unique?

Centrale Lyon, ENTPE, INSA Lyon, and Mines Saint-Etienne are from France's most **prestigious engineering** schools.

Learn directly from industry and academic specialists in engaging lectures and seminars.

Connect with international students and professors.

SURE is located in the heart of France's **leading industrial region**, offering privileged access to a rich professional and technological ecosystem.

Explore cutting-edge laboratories and participate in field visits.

Programme Overview

- **Duration:** 4 weeks – mid-June to mid-July 2026
- **Locations:** Saint-Étienne & Lyon, France
- **Format:** Courses, industrial visits, case studies, and cultural experiences

Part I – (from 22 June to 4 July)

Theme: Materials and Technologies for Sustainable Energy
Centrale Lyon ENISE & Mines Saint-Étienne

 Saint-Étienne

Part II – (from 6 to 18 July)

Theme: Water, City, and Resilient Environments
Centrale Lyon, ENTPE & INSA Lyon

 Lyon

Join SURE 2026 and start your journey in sustainable engineering to become a future leader in tackling global challenges!
